

## **AECSD Outside Facilities Reopening Plan**

In order to alleviate some of the inconsistencies that have resulted from NYS guidance, we have established the following District procedures. These procedures will remain in place until we receive further guidance from NYS.

### **All COVID 19 guidelines should be followed at all times.**

- Auburn District facilities are open for individual members of the community to use beginning on July 6, 2020. This includes the playgrounds, AHS track, Holland Stadium and AHS tennis courts.
- No District Restroom facilities will be available. Hand Sanitizing stations will be placed at each facility with COVID 19 guidelines.
- Individual students, without coach supervision, may use District facilities and their personal equipment from dawn to dusk when not in use by District personnel.
- The AECSD has elected NOT to allow recreational entities to schedule use of our facilities until further NYS guidance is provided. No tournaments, camps or practices conducted by outside organizations will be allowed at this time.

### **District Personnel Guidelines:**

- Groups of students under the supervision of District coaches may use District facilities beginning on July 6, 2020 for conditioning workouts ONLY. There will be NO equipment utilized, including balls, sleds and any fitness equipment.
  - Groups of a maximum of 10 students and one coach are permitted.
  - Only one group can be on a field at a time – no sharing the field with another group.
  - District personnel can use all fields at each school, but no more than 50 total people are permitted at a school at one time.
  - One coach can position themselves in between two groups (on adjoining fields) to supervise the conditioning.
  - Only outside District facilities can be used at this time.
  - There can be NO Equipment used.

### **Conditioning Guidelines**

1. Stay home if you do not feel well.
2. Coaches must direct students to enter the facility individually, maintaining social distance and assure that each participant has a face covering. Face coverings and social distancing must be utilized on the way to and from practice.
3. Coaches should take daily attendance of group members and MUST complete the COVID 19 monitoring form (use the provided form). Coaches must keep these monitoring forms so that they are available upon request.
4. Prior to beginning Conditioning workouts everyone must use hand sanitizer.
5. During Conditioning workouts everyone must maintain social distancing.
6. Coaches must wear face coverings at all times.
7. Participants may remove their face coverings when conditioning, but must maintain social distancing. Participants must wear face coverings when social distancing is not possible.
8. Each individual must have their own labeled water bottle. Social distancing must be maintained during water breaks.
9. Hands must be sanitized following any water breaks.
10. When leaving the facility students should maintain social distancing and proper face covering procedures, and use hand sanitizer.

If you have questions, please contact the Facilities Department (315) 255-8853 or the Athletic Department at (315) 255-8817.

# Important Information About Your Cloth Face Coverings

Print Resources Web Page: <https://www.cdc.gov/coronavirus/2019-ncov/communication/print-resources.html>

As COVID-19 continues to spread within the United States, CDC has recommended additional measures to prevent the spread of SARS-CoV-2, the virus that causes COVID-19. In the context of community transmission, CDC recommends that you:

**Stay at home as much as possible**

**Practice social distancing (remaining at least 6 feet away from others)**

**Clean your hands often**

**In addition, CDC also recommends that everyone wear cloth face coverings when leaving their homes, regardless of whether they have fever or symptoms of COVID-19. This is because of evidence that people with COVID-19 can spread the disease, even when they don't have any symptoms.** Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

## How cloth face coverings work

Cloth face coverings may prevent the person wearing the mask from spreading respiratory droplets when talking, sneezing, or coughing. If everyone wears a cloth face covering when out in public, such as going to the grocery store, the risk of exposure to SARS-CoV-2 can be reduced for the community. Since people may spread the virus before symptoms start, or even if people never have symptoms, wearing a cloth face covering may protect others around you. Face coverings worn by others may protect you from getting the virus from people carrying the virus.

## General considerations for the use of cloth face coverings

When using a cloth face covering, make sure:

- The mouth and nose are fully covered
- The covering fits snugly against the sides of the face so there are no gaps
- You do not have any difficulty breathing while wearing the cloth face covering
- The cloth face covering can be tied or otherwise secured to prevent slipping

Wash your cloth face covering after each use in the washing machine or by hand using a bleach solution. Allow it to completely dry.
