## Café Questions (Grs. 3-6):

1. A transition begins to happen in Grades 3-6. What do you most want to know, and how can the school support you with getting that?
2. Our children are together in school all day. How can we build those relationships so that when questions, problems, or celebrations come up, they can be there for one another? What skills will they need?
3. Schools are challenged with educating our children, but we all know learning happens everywhere. What is Seward doing really well, and what more could they do to support staff and families as being equal team members who hold this responsibility?
