## INDEPENDENT AUDITOR'S REPORT

October 11, 2022

To the Board of Education of the  
Auburn Enlarged City School District

### Report on the Financial Statements

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Auburn City School District (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter - Change in Accounting Principle***

As discussed in Note 12 to the financial statements, during the year ended June 30, 2022, the District adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

## **INDEPENDENT AUDITOR'S REPORT (CONTINUED)**

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **INDEPENDENT AUDITOR'S REPORT (CONTINUED)**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; Schedule of Revenue, Expenditures, and Change in Fund Balance - Budget and Actual - General Fund; Schedule of Changes in Total OPEB Liability and Related Ratios; Schedule of Proportionate Share of Net Pension Liability (Asset) and the Schedule of Contributions - Pension Plans be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the financial statements. The other information comprises the Schedule of Change from Original Budget to Revised Budget and the Real Property Tax Limit - General Fund, Schedule of Project Expenditures - Capital Projects Fund and the Schedule of Net Investment in Capital Asset, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

## **INDEPENDENT AUDITOR'S REPORT (CONTINUED)**

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

### Management's Discussion and Analysis (Unaudited) June 30, 2022

---

The following is a discussion and analysis of the Auburn Enlarged City School District's (the District) financial performance. This section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

#### FINANCIAL HIGHLIGHTS

- At June 30, 2022 total liabilities (what the District owes) exceeded its total assets (what the District owns) by \$178,040,577 (net position) and at June 30, 2021 total liabilities exceeded total assets by \$189,701,593 (as restated), an increase of \$11,661,016 from 2021 to 2022. This increase in net position is primarily due to a changes in the valuation of pension.
- Capital asset additions during fiscal 2022 amounted to approximately \$13.2 million, primarily due to \$12.7 million of capital project expenditures related to ongoing capital projects, approximately \$57,000 in additions to buildings and site improvements, and approximately \$460,000 of furniture and equipment purchases. In fiscal 2022 lease asset additions amounted to approximately \$528,000.
- General revenue, which includes State aid, and property taxes accounted for \$82,858,588 (or 86%) of all revenue. Program specific revenue in the form of Charges for Services and Operating Grants and Contributions accounted for \$13,363,049 (or 14%) of total revenue.
- Total expenses in the district-wide financial statements totaled \$84,560,621 and \$106,041,206 in 2022 and 2021, respectively.
- As of the close of the fiscal year, the District's governmental funds reported a combined fund balance of \$28,236,600, in 2022, an increase of \$14,252,191 from 2021 to 2022.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are District-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are Governmental fund financial statements that focus on individual activities of the District, reporting the operation in more detail than the District-wide statements.
  - The Governmental fund statements tell how basic services, such as instruction and support functions, were financed in the short-term, as well as what remains for future spending.

## Management's Discussion and Analysis (Unaudited) June 30, 2022

---

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison to the District's budget for the year. Table A-1 shows how the various parts of this annual report are arranged and related to one another.

**Table A-1** Organization of the District's Annual Financial Report

Table A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities that they cover and the types of information that they contain. The remainder of this overview section highlights the structure and contents of each statement.

Type of asset/deferred inflows-outflows of resources/liability information	All assets/deferred outflows and liabilities/inflows, both financial and capital, short-term and long-term	Current assets and liabilities that come due during the year or soon after; no capital assets or long-term liabilities included
Type of inflow/outflow information	All revenue and expenses during the year, regardless of when cash is received or paid	Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable

**District-Wide Statements**

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional nonfinancial factors, such as changes in the property tax base and the condition of buildings and other facilities, should be considered.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Management's Discussion and Analysis (Unaudited)

June 30, 2022

---

Net position of the governmental activities differs from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (dollars) are expended to purchase or build such assets. Likewise, the financial resources that may have been borrowed are considered revenue when received. Principal and interest payments are considered expenditures when paid. Depreciation is not calculated. Capital assets and long-term debt are accounted for in account groups and do not affect fund balances.

District-wide statements use an economic resources measurement focus and full accrual basis of accounting that involves the following steps to prepare the statement of net position:

- Capitalize current outlays for capital assets.
- Report long-term debt as a liability.
- Depreciate capital assets and allocate the depreciation to the proper function.
- Calculate revenue and expenditures using the economic resources measurement focus and the full accrual basis of accounting.
- Allocate net position balances as follows:
  - Net investment in capital assets.
  - Restricted net position includes resources with constraints placed on use by external sources or imposed by law.
  - Unrestricted net position is net position that does not meet any of the above restrictions.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The funds have been established by the State of New York.

The District has one type of fund:

- **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out of the District and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information in the reconciliation of the governmental fund statements explain the relationship (or differences) between them. The governmental fund statements focus primarily on current financial resources and often have a budgetary orientation. Governmental funds include the General fund, Special Aid fund, School Lunch fund, Debt Service fund and the Capital Projects fund. Required financial statements are the balance sheet and the statement of revenue, expenditures, and changes in fund balance.

### Management's Discussion and Analysis (Unaudited) June 30, 2022

#### Financial Analysis of the District as a Whole

Our analysis below focuses on the net position (Table A-3) and the change in net position (Table A-4) of the District-wide governmental activities.

**Table A-3** Condensed Statements of Net Position - Governmental Activities

	Fiscal Year 2022	Fiscal Year 2021 (as restated)	Percent Change
Current and other assets	\$ 37,281,543	\$ 46,333,891	-19.5%
Non-current assets	<u>113,792,380</u>	<u>73,373,277</u>	55.1%
Total assets	<u>151,073,923</u>	<u>119,707,168</u>	26.2%
Deferred outflows of resources	<u>38,905,000</u>	<u>58,517,797</u>	-33.5%
Current liabilities	9,090,822	32,401,974	-71.9%
Long-term liabilities	<u>289,401,580</u>	<u>289,739,042</u>	-0.1%
Total liabilities	<u>298,492,402</u>	<u>322,141,016</u>	-7.3%
Deferred inflows of resources	<u>69,527,098</u>	<u>45,785,542</u>	51.9%
Net position:			
Net investment in capital assets	36,601,977	36,494,602	0.3%
Restricted	13,589,531	26,747,717	-49.2%
Unrestricted	<u>(228,232,085)</u>	<u>(252,943,912)</u>	-9.8%
Total net position	<u>\$ (178,040,577)</u>	<u>\$ (189,701,593)</u>	-6.1%

In Table A-3, total assets at June 30, 2022 were approximately \$31.4 million higher than at June 30, 2021. Non-current assets increased approximately \$40 million, due primarily to the District having a net pension asset at June 30, 2022 for both ERS and TRS. At June 30, 2021 the District had a net pension liability for ERS and TRS. Current assets decreased approximately \$9.1 million, due to a decrease in cash at June 30, 2022 arising from current year activities of the District.

Deferred outflows of resources at June 30, 2022 were approximately \$19.6 million lower than at June 30, 2021, due to a decrease in the other postemployment benefit related deferred outflows of resources.

Total liabilities decreased by approximately \$23.4 million, due primarily to a decrease in current liabilities of approximately \$23.3 million. The decrease in current liabilities is due to a decrease in the bond anticipation notes payable as of year-end.

Deferred inflows of resources at June 30, 2022 were approximately \$23.7 million higher than at June 30, 2021, due primarily to a decrease in deferred inflows of resources related to pension.

#### Changes in Net Position

The District's fiscal year 2022 revenues totaled \$96,221,637 (Table A-4). Property taxes (including other tax items) and state sources accounted for most of the District's revenue by contributing \$0.83 and \$0.86 of every dollar raised in 2022 and 2021, respectively (Table A-5). The remainder of revenue came from fees charged for services, operating grants, use of money and property, and other miscellaneous sources.

The total cost of all programs and services totaled \$84,560,621 for fiscal year 2022. These expenses are predominately related to general instruction, which account for 78% of the District expenses (See Table A-6). The District's general support activities accounted for 15% of total costs.

**Financial Analysis of the District's Funds**

Variations between years for the governmental fund financial statements are not the same as variations between years for the District-wide financial statements. The District's governmental funds are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Based on this presentation, governmental funds do not include long-term debt, liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

At June 30, 2022, the District, in its governmental funds, reported combined fund balances of \$28.2 million, an increase of \$14.3 million from the prior year.

### **FACTORS BEARING ON THE FUTURE OF THE DISTRICT**

The District relies heavily on state aid to finance its operations; approximately 50-55% of the District's General Fund revenues are from state aid. Foundation aid is still not fully funded but New York State has passed legislation ensuring 100% funding of foundation aid by 2023-24. The District has been hit hard by state economic woes in the past and any future uncertainties could negatively impact the amount of state aid the District receives. The District is continuing its advocacy campaign to fix the foundation aid formula and to phase-in full funding, and is hopeful that full funding of the current formula will happen next year.

In addition, the state has enacted a tax levy limit for all municipalities and school districts which is tied to the rate of inflation. This limits the District's ability to increase the tax levy by more than 2% per year, thus serving to further increase the District's reliance on state aid increases.

Health insurance costs are one of the largest expenses in the District's annual budget. The District provides postemployment health insurance coverage to retirees in accordance with various employment contracts. The cost of this coverage is recognized by the District annually as payments are made (pay-as-you-go basis); however, the true actuarially calculated liability for this coverage is estimated at approximately \$239 million. The District has not made current provisions to fund this obligation and going forward the size of this liability may impact the District's ability to fund other programs.

Legislation signed into law by the President of the United States in 2020 and 2021 (CRRSA and ARP Acts), resulted in the District being awarded almost \$13.7 million to address lost instructional time as well as to respond to students' academic, social and emotional needs. These funds will lessen the District's financial concerns for the next 3 to 4 years, but will cause a funding cliff in years thereafter.

### **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the finances of the District and to demonstrate the District's accountability with the funds it receives. If you have any questions about this report or need additional financial information, please contact: Lisa Green, School Business Executive, Auburn Enlarged City School District, 78 Thornton Ave., Auburn, New York 13021.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Basic Financial Statements June 30, 2022

---

#### 1. NATURE OF OPERATIONS

Auburn Enlarged City School District (the District) provides free K-12 public education to students living within its geographic borders.

##### **Reporting Entity**

The District is governed by the Laws of New York State. The District is an independent entity governed by an elected Board of Education (BOE) consisting of 7 members. The President of the Board serves as chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by the Governmental Accounting Standards Board (GASB) and consists of the primary government, and when applicable, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School District. The accompanying financial statements present the activities of the District including the Extraclassroom Activity Funds (the ECA Funds).

The Extraclassroom Activity Funds represent funds of the students of the District. The Board of Education exercises general oversight of these funds; however, these funds are used as designated by student management. The District accounts for the activities of these various student organizations in the Miscellaneous Special Revenue Fund. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found at the District's business office.

##### **Joint Venture**

The District is a component school district in the Cayuga-Onondaga Counties Board of Cooperative Education Services (BOCES). BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES board is considered a corporate body. Members of a BOCES board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES board as a corporation (§1950(6)). In addition, BOCES boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component school districts pay tuition or a service fee for programs in which its students participate.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Basic Financial Statements June 30, 2022

---

During the year, the District was billed \$14,688,090 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$1,586,606.

Financial statements for the BOCES are available from the BOCES administrative office.

#### 2. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the District are described below.

##### **Basis of Presentation**

The District's financial statements consist of district-wide financial statements, including a Statement of Net Position and a Statement of Activities, and fund level financial statements which provide more detailed information.

##### **District-Wide Statements**

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenue, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenue includes charges paid by the recipients of goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue.

##### **Fund Financial Statements**

The fund statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

**General Fund** - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Basic Financial Statements June 30, 2022

---

**Special Revenue Fund** - This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

- Special Aid Fund: Used to account for proceeds from State and Federal grants that are restricted for specific educational programs.

**Capital Projects Fund** - This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

The District reports the following nonmajor governmental funds:

- Debt Service Fund: this fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.
- School Lunch Fund: Used to account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for school lunch operations. These legal restrictions may
- Extraclassroom Activities: This fund accounts for the activities of the student run clubs and organization of the District.
- Scholarships: This fund accounts for amounts contributed to fund scholarships and the distribution of scholarships.

#### **Measurement Focus and Basis of Accounting**

Measurement focus refers to what is being measured, whereas basis of accounting refers to when revenues and expenditures are recognized. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place.

Non-exchange transactions in which the District gives or receives value without directly receiving or giving equal value in exchange include property taxes, grants, and donations.

On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The district considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year as it matches the liquidation of related obligations.

---

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, pensions, and other postemployment benefits which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under leases are reported as other financing sources.

#### **Cash and Cash Equivalents**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies; and obligations of the State and its municipalities and Districts.

#### **Restricted Cash and Cash Equivalents**

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets include amounts required by statute to be reserved for various purposes.

#### **Property Taxes**

Real property taxes are levied annually by the BOE no later than September 1, and become a lien on September 1. Taxes are collected during the period September 1 to December 1. Taxes not collected by December 1 are turned over to the City and County who assume all responsibility for collection. Uncollected real property taxes are subsequently enforced by the City and County in which the District is located. The City and County pay an amount representing uncollected real property taxes transmitted to the City and County for enforcement to the District no later than the following August 31.

Real property taxes receivable expected to be collected within 60 days of year-end are recognized as revenue. Otherwise, a deferred inflows of resources offset real property taxes receivable.

#### **Due From Other Governments**

Due from other governments recorded as an asset at June 30, 2022, relates to receivables due from BOCES and other school districts. Management does not believe an allowance for doubtful accounts is necessary.

#### **State and Federal Aid Receivable**

State and federal aid receivable recorded as an asset at June 30, 2022 relates to receivables due from New York State and/or the federal government. Management does not believe an allowance for doubtful accounts is necessary.

#### **Other Receivables**

Other receivables are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since management believes that such allowance would not be material.

#### Inventory and Prepaid Items

Inventory of food in the school lunch fund is recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

#### Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 7 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures, and revenues activity.

#### Capital Assets

In the District-wide financial statements, capital assets are accounted for at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. A capitalization threshold is used to report capital assets and the range of estimated useful lives by type of assets is as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Buildings	\$ 5,000	SL	40
Building improvements	\$ 5,000	SL	40
Site improvements	\$ 5,000	SL	15 - 20
Furniture and equipment	\$ 5,000	SL	5 - 20

Capital assets also include lease assets with a term greater than one year. The District does not implement a capitalization threshold for lease assets. Lease assets are amortized on a straight-line basis over the term of the lease.

#### **Vested Employee Benefits**

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time. Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

The liability has been calculated using the vesting/termination method and an accrual for that liability is included in the district-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the fund statements only the amount of matured liabilities is accrued within the General fund based upon expendable and available financial resources. These amounts are recognized as expenditures on a pay-as-you-go basis.

#### **Retirement Benefits**

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

#### **Other Postemployment Benefits**

In addition to providing retirement benefits, the District provides postemployment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provisions of various current employment contracts. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through self-insured plans and claims are paid by the District. The District recognizes the cost of providing health insurance by recording its share of insurance claims when they are paid.

#### **Deferred Outflows and Inflows of Resources**

In addition to assets and liabilities, the Balance Sheet and Statement of Net Position will sometimes report a separate section for deferred outflows/inflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

#### **Unearned Revenue**

The District reports unearned revenues on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and revenue is recognized.

#### Short Term Debt

The District may issue Revenue Anticipation Notes (RANs) and Tax Anticipation Notes (TANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue Bond Anticipation Notes (BANs), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. Such notes may be classified as part of the General Long-Term Debt Account Group when (1) the intention is to refinance the debt on a long-term basis and (2) the intention can be substantiated through a post balance-sheet issuance of long-term debt or by an acceptable financing agreement. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

#### Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

#### Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

#### District-wide Statements - Equity Classifications

In the District-wide statements there are three classes of net position:

Net investment in capital assets - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted net position - reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - reports all other net position that does not meet the definition of the above two classifications and are deemed to be available for general use by the District.

#### **Governmental Fund Financial Statements - Equity classifications**

In the fund basis statements there are five classifications of fund balance:

**Nonspendable fund balance** - Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.

**Restricted fund balance** - Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The capital projects fund has other restricted fund balance of \$3,118,524 at June 30, 2022 related to the District's current active capital projects. The extraclassroom activity special revenue fund has other restricted fund balance of \$100,223 related to extraclassroom activities. The scholarship special revenue has other restricted fund balance of \$185,872 scholarship funds. The District has available the following restricted fund balances:

##### Capital reserve

According to Education Law §3651, this reserve must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. The Reserve is accounted for in the General Fund under restricted fund balance.

##### Reserve for Debt Service

According to General Municipal Law §6-l, the Reserve for Debt Service must be established for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations that remain outstanding at the time of the sale. Also, earnings on project monies invested together with unused proceeds are reported here.

##### Repair

Repair reserve (GML §6-d) is used to pay the cost of repairs to capital improvements or equipment, that are of a type not recurring annually. The BOE, without voter approval, may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund.

##### Employee Benefit Accrued Liability Reserve

According to General Municipal Law §6-p, this reserve must be used for the payment of accrued employee benefits due to an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

#### Insurance Reserve

According to General Municipal Law §6-n, this reserve must be used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriation, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve, however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval.

#### Liability Reserve

According to General Municipal Law § 1709(8)(c), this reserve must be used to pay for property loss and liability claims incurred. Separate funds for property loss and liability claims are required, and this reserve may not in total exceed 3% of the annual budget or \$15,000, whichever is greater.

#### Tax Certiorari

According to Education Law §3651.1-a, must be used to establish a reserve fund for tax certiorari and to expend from the funds without voter approval. The monies held in the reserve shall not exceed the amount that might reasonably be deemed necessary to meet anticipated judgements and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies. This reserve is accounted for in the General Fund.

#### Retirement Contribution

Retirement contribution reserve (GML §6-r) is used for the purpose of financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of operation and condition of the fund must be provided to the board. This reserve is accounted for in the general fund.

#### Workers' Compensation

According to General Municipal Law §6-j, must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the General Fund.

Unemployment Insurance Reserve

This reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the District has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to the tax (contribution) basis, excess resources in the fund may be transferred to any other reserve fund. The reserve is accounted for in the General fund under restricted fund balance.

Reserve for Tax Reduction

This reserve (EL §1604, §1709) is used for the gradual use of the proceeds of the sale of District real property where such proceeds are not required to be placed in a mandatory reserve for debt service. Specifically, the District is permitted to retain the proceeds of the sale for a period not to exceed ten years, and to use them during that period for tax reduction. This reserve is accounted for in the general fund.

Reserve for Insurance Recoveries

Reserve for Insurance Recoveries (Education Law §1718(2)) is used at the end of the fiscal year to account for unexpended proceeds of insurance recoveries. They will be held there pending action by the Board on their disposition. This reserve will not be used if the insurance recovery is expended in the same fiscal year in which it was received. The reserve is accounted for in the general fund.

Restricted fund balance includes the following:

General Fund	
Employee benefits accrued liability	\$ 212,864
Unemployment insurance	151,066
Liability reserve	503,260
Capital reserve	1,254,760
Tax certiorari reserve	2,710,826
Retirement reserve	3,635,799
Worker's comp reserve	832,343
Insurance reserve	<u>460,335</u>
Total restricted fund balance	<u>\$ 9,761,253</u>
Debt Service Fund	\$ 15,522
School lunch fund	\$ 526,332
Capital Projects Fund	\$ 3,118,524
Scholarships Fund	\$ 185,872
Extraclassroom Activities Fund	\$ 100,223

Committed fund balance - Includes amounts that can be used for the specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority, the BOE. The District has no committed fund balances as of June 30, 2022.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Basic Financial Statements

June 30, 2022

---

Assigned fund balance - Includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the General fund are classified as assigned fund balance in the General fund. Encumbrances represent purchase commitments made by the District's purchasing agent through their authorization of a purchase order prior to year-end. The District assignment is based on the functional level of expenditures.

#### Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the General Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year. Encumbrances are classified as assigned fund balance.

Unassigned fund balance - Includes all other general fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the District.

New York State Real Property Tax Law §1318 limits the amount of unexpended surplus funds the District can retain to no more than 4% of the District's budget for the general fund for the ensuing fiscal year. Non-spendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year's budget and encumbrances are also excluded from the 4% limitation.

#### **Order of Fund Balance Spending Policy**

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, non-spendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as restricted fund balance. In the general fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

#### **Use of Estimates**

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and the accompanying notes

### **3. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the statement of activities compared with the current financial resources focus of the governmental funds.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Basic Financial Statements June 30, 2022

---

#### **Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities**

Total fund balances of the District's governmental funds differ from net position of governmental activities reported in the statement of net position. This difference results from the additional long-term economic focus of the statement of net position versus the solely current financial resources focus of the governmental fund balance sheets.

#### **Statement of Revenue, Expenditures, and Changes in Fund Balance vs. Statement of Activities**

Differences between the governmental funds statement of revenue, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories.

- **Long Term Revenue and Expense Differences**  
Long-term revenue differences arise because governmental funds report revenue only when it is considered "available," whereas the statement of activities reports revenue when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the statement of activities.
- **Capital Related Differences**  
Capital related differences include the difference between proceeds from the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.
- **Long Term Debt Transaction Differences**  
Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.
- **Pension Differences**  
Pension differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pension systems.
- **OPEB Differences**  
OPEB differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

#### **4. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

By its nature as a local government unit, the District is subject to various federal, state and local laws and contractual regulations. An analysis of the District's compliance with significant laws and regulations and demonstration of its stewardship over District resources follows.

#### **Budgets**

The District administration prepares a proposed budget for approval by the Board Of Education for the General Fund.

The voters of the District approved the proposed appropriation budget.

Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved the BOE as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restriction, if the board approves them because of a need that exists which was not determined at the time the budget was adopted. There were no supplemental appropriations during the year.

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

The General Fund is the only fund with a legally approved budget for the fiscal year ended June 30, 2022.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

#### **Encumbrances**

Encumbrance accounting is used for budgetary control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as assignments of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

The portion of the District's fund balance subject to the New York State Real Property Tax Law §1318 limit exceeded the amount allowable, which is 4% of the District's budget for the upcoming school year. Actions the District plans to pursue to address this issue include reducing future tax levies and committing funds for capital asset projects and purchases.

#### **Fund Balance**

The District's unrestricted fund balance in its General fund was in excess of the New York State Real Property Tax Law §1318 limit, which restricts it to an amount not greater than 4% of the District's budget for the upcoming school year.

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements**

Portions of the fund balances are restricted and are not available for current expenditures or expenses, as reported in the governmental funds balance sheet.

**5. CASH**

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies, as discussed previously in these Notes.

At June 30, 2022, the reported amount of the District's deposits was \$24,964,918 and the bank balance was \$25,934,992. Of the bank balance \$1,027,172 was covered by federal depository insurance or by collateral held by the District's agent in the District's name, and the remaining was covered by collateral held in the pledging bank's trust department in the District's name.

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$5,213,388 within the governmental funds.

**10. PENSION PLANS**

***New York State Employees' Retirement System***

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, and the Report on the Schedule of Employer Allocations and Schedules of Pension Amounts by Employer may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The system is noncontributory except for employees who joined the System after July 27th, 1976, who contribute 3.0% percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0% to 3.5% percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier 6 vary based on a sliding salary scale. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>
2022	\$ 644,467
2021	\$ 962,835
2020	\$ 833,374

**Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions**

At June 30, 2022, the District reported a net pension asset of \$1,519,105 for its proportionate share of the ERS net pension liability. The net pension asset was measured as of March 31, 2022, and the total pension liability used to calculate the net pension liability was determined by the actuarial valuation as of April 1, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2022, the District's proportionate share was 0.0185833%, which was an decrease of 0.0017003% from its proportionate share at June 30, 2021.

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements  
June 30, 2022**

For the year ended June 30, 2022, the District recognized pension expense of \$95,542. At June 30, 2022, the District reported deferred outflows/inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 115,044	\$ 149,219
Changes of assumptions	2,535,216	42,779
Net difference between projected and actual earnings on pension plan investments	-	4,974,432
Changes in proportion and differences between the District's contributions and proportionate share of contributions	92,288	134,293
Contributions subsequent to the measurement date	<u>161,100</u>	-
Total	<u>\$ 2,903,648</u>	<u>\$ 5,300,723</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ended March 31:

2023	\$ (377,549)
2024	(573,201)
2025	(1,307,572)
2026	<u>(299,853)</u>
	<u>\$ (2,558,175)</u>

The District recognized \$161,100 as deferred outflow of resources related to pensions resulting from contributions made subsequent to the measurement date of March 31, 2022 which will be recognized on a reduction of the net pension liability in the year ended June 30, 2023.

**Actuarial Assumptions**

The total pension liability at March 31, 2022 was determined by using an actuarial valuation as of April 1, 2021, with update procedures used to roll forward the total pension liability to March 31, 2022.

The actuarial valuation used the following actuarial assumptions:

Actuarial cost method	Entry age normal
Inflation	2.70%
Salary scale	4.4% indexed by service
Projected COLAs	1.4% compounded annually
Decrements	Developed from the Plan's 2021 experience study of the period April 1, 2015 through March 31, 2020
Mortality improvement	Society of Actuaries Scale MP-2020
Investment Rate of Return	5.9% compounded annually, net of investment expenses

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements**

**June 30, 2022**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Type	Target Allocations in %	Long-Term expected real rate of return in %
Domestic equity	32.0	3.30
International equity	15.0	5.85
Private equity	10.0	6.50
Real estate	9.0	5.00
Opportunistic/ARS portfolio	3.0	4.10
Credit	4.0	3.78
Real assets	3.0	5.58
Fixed income	23.0	0.00
Cash	1.0	-1.00
	100.0	

**Discount Rate**

The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption**

The following presents the School District’s proportionate share of the net pension asset calculated using the discount rate of 5.9%, as well as what the School District’s proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1% lower (4.9%) or 1% higher (6.9%) than the current rate:

	1% Decrease <u>4.90%</u>	Current Discount <u>5.90%</u>	1% Increase <u>6.90%</u>
Proportionate Share of Net Pension liability (asset)	<u>\$ 3,910,159</u>	<u>\$ (1,519,105)</u>	<u>\$ (6,060,422)</u>

***New York State Teachers' Retirement System***

The District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10-member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the System, may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial report and/or the Report on the Schedule of Employer Allocations and Schedules of Pension Amounts by Employer, which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

The New York State Teachers' Retirement Board administers NYSTRS. NYSTRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. NYSTRS issues a publicly available financial report that contains financial statements and required supplementary information for the system. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395.

**Contributions**

NYSTRS is noncontributory for the employees who joined prior to July 27, 1976. For employees who joined the NYSTRS after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary, except that employees in the System more than ten years are no longer required to contribute. For employees who joined after January 1, 2010 and prior to April 1, 2012, contributions of 3.5% are paid throughout their active membership.

For employees who joined after April 1, 2012, required contributions of 3.5% of their salary are paid until April 1, 2013 and they then contribute 3% to 6% of their salary throughout their active membership. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for NYSTRS.

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements**

**June 30, 2022**

The District is required to contribute at an actuarially determined rate. The District contributions made to NYSTRS were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

	<u>TRS</u>
2022	\$ 3,162,536
2021	\$ 2,787,398
2020	\$ 2,687,065

**Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions**

At June 30, 2022, the District reported a net pension asset of \$29,861,851 for its proportionate share of the TRS net pension asset. The net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by the actuarial valuation as of June 30, 2020. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2022 the District's proportionate share was 0.172323%, which was an increase of 0.007072% from its proportionate share at June 30, 2021.

For the year ended June 30, 2022, the District recognized pension income of \$1,663,352. At June 30, 2022 the District reported deferred outflows/inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 4,116,139	\$ 155,145
Changes of assumptions	9,822,187	1,739,365

Contributions subsequent to the measurement date	<u>3,162,536</u>	<u>-</u>
Total	<u>\$ 17,778,609</u>	<u>\$ 33,695,373</u>

The District recognized \$3,162,536 as a deferred outflow of resources related to pensions resulting from the District's contributions subsequent to the measurement date June 30, 2021 which will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements

---

Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ended June 30:

2022	\$ (3,806,186)
2023	(4,499,549)
2024	(5,598,986)

2026	1,362,861
Thereafter	<u>962,681</u>
Total	<u>\$ (19,079,300)</u>

**Actuarial Assumptions**

The total pension liability at the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2021, with update procedures used to roll forward the total pension liability to June 30, 2020. These actuarial valuations used the following actuarial assumptions:

Actuarial cost method	Entry age normal
Inflation	2.40%
Projected Salary Increases	Rates of increase differ based on service. They have been calculated based upon recent NYSTRS member experience.

<u>Service</u>	<u>Rate</u>
5	5.18%
15	3.64%
25	2.50%
35	1.95%

Projected COLAs	1.3% compounded annually
Investment Rate of Return	6.95% compounded annually, net of pension plan investment expense,

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP2020, applied on a generational basis.

The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2015 to June 30, 2020. Active member mortality rates are based on plan member experience.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expect future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

**AUBURN ENLARGED CITY SCHOOL DISTRICT**

**Notes to Basic Financial Statements  
June 30, 2022**

The Long-Term Expected Real Rates of Return are presented by asset allocation classification, which differs from the financial statement presentation. Best estimates of arithmetic real rates of return for each major asset class included in the System’s target asset allocation as of the measurement date of June 30, 2021 are summarized in the following table:

Asset Type	Target Allocations in %	Long-term expected real rate of return in %
Domestic Equity	33.0	6.8
International Equity	16.0	7.6
Global Equity	4.0	7.1
Real Estate Equity	11.0	6.5
Private Equity	8.0	10.0
Domestic Fixed Income	16.0	1.3
Global Bonds	2.0	0.8
High-Yield Bonds	1.0	3.8
Private Debt	1.0	5.9
Real Estate Debt	7.0	3.3
Cash equivalents	1.0	-0.2
	100.0	

**Discount Rate**

The discount rate used to measure the total pension liability was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the NYSTRS’ fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate**

The following presents the net pension liability (asset) of the school districts calculated using the discount rate of 6.95%, as well as what the school districts’ net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.95%) or 1-percentage-point higher (7.95%) than the current rate:

	1% Decrease <u>5.95%</u>	Current Discount <u>6.95%</u>	1% Increase <u>7.95%</u>
Proportionate Share of Net Pension Liability (asset)	<u>\$ (3,133,566)</u>	<u>\$(29,861,851)</u>	<u>\$ (52,325,035)</u>

#### Payables to the Pension Plans

For TRS, employer and employee contributions for the fiscal year ended June 30, 2022 are paid to the System in September, October and November 2022 through a state aid intercept. Accrued retirement contributions as of June 30, 2022 represent employee and employer contributions for the fiscal year ended June 30, 2022 based on paid TRS covered wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS System.

For ERS, employer contributions are paid annually based on the System's fiscal year, which ends on March 31st. Accrued retirement contributions as of June 30, 2022 represent the projected employer contribution for the period of April 1, 2022 through June 30, 2022 based on paid ERS covered wages multiplied by the employer's contribution rate, by tier. Employee contributions are remitted monthly.

## 11. OTHER POSTEMPLOYMENT BENEFITS

#### Plan Description

The District's defined benefit OPEB plan, provides OPEB for all employees who meet the NYSTRS/NYSERS eligibility requirements. Teachers and Administrators age 55 with 5 years of service who are eligible to retire and collect benefits according to the NYSTRS are eligible for retiree health care benefits for life from the District. Support staff hired before January 1, 2010 age 55 with 5 years of service are eligible to retire and collect benefits for life from the District according to NYSERS. Members after January 1, 2010 must be 55 years old with 10 years of service to qualify for NYSERS health care benefits.

The plan is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

#### Benefits Provided

The District provides healthcare benefits for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

#### Total OPEB Liability

The District's total OPEB liability of \$239,434,874 was measured as of June 30, 2022, and was determined by an actuarial valuation as of that date.

#### Actuarial Assumptions and Other Inputs

The total OPEB liability as of June 30, 2022 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.4 percent per year
Payroll Growth	3.11 percent as of June 30, 2021, 3.44 percent as of June 30, 2022
Discount Rate	2.27 percent as of June 30, 2021, 2.83 percent as of June 30, 2022
Healthcare Cost Trend Rates	6.1 percent for 2022, decreasing to an ultimate rate of 4.37 percent for years after 2070
Share of Benefit-Related Costs	20 percent share of GDP above which cost growth is assumed to meet resistance
Cost Method	Entry Age Normal, Level Percent of Pay

The discount rate was based on a yield for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality rates were MP-2021 Dataset Mortality Table fully generational as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the June 30, 2022 valuation were based on large scale retirement plan population data. The plan's estimated termination and retirement experience is then analyzed and the base table is adjusted accordingly. There is no formal experience study done for the plan.

### 13. RISK MANAGEMENT

#### General

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, etc. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

#### Worker's Compensation

The District is a member of the Onondaga-Cortland-Madison Counties BOCES Consortium Workers' Compensation Self-Insurance Plan (the Plan). Current membership of the Plan includes various municipal entities. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law, to finance liability and risks related to Workers' Compensation claims. The Plan participants are charged an annual assessment which is allocated in light of comparative experience and relative exposure based on the estimated total liability of the participating members actuarially computed each year.

The Plan purchases, on an annual basis, stop-loss insurance to limit its exposure for claims.

The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claim costs depend on complex factors, the process used in computing claim liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and claims that have been incurred but not reported. Adjustments to claim liabilities are charged or credited to expense in the periods in which they are made. During the year ended June 30, 2022, the District incurred premiums or contribution expenditures totaling \$350,621.

#### Health Insurance Plan

The District has a District-wide self-insured Health Insurance Plan administered through a third party insurance carrier. Claims incurred but not reported (IBNR) was approximately \$1,388,316 at June 30, 2022 and was recorded in the General Fund in accrued liabilities.

#### Unemployment

Law. The District has elected to discharge its liability to the New York State Unemployment Insurance Fund (the Fund) by the benefit reimbursement method, a dollar for dollar reimbursement to the fund for the benefits paid from the fund to former employees. The expenditures of this program for the 2021-2022 fiscal year totaled \$1,235. In addition, as of June 30, 2022, no loss contingencies existed or were considered probable or estimable for incurred but not reported claims payable.

**14. CONTINGENCIES AND COMMITMENTS**

**Litigation**

The District has been named as defendant in several tax certiorari cases. A review by the District and the District's attorneys indicate these actions are not substantial enough to materially affect the financial position of the District.

The District has also been named as a defendant in certain other actions. The District intends to defend itself vigorously in each of these cases. Accordingly, no loss contingency has been accrued.

**Other Contingencies**

The District has received grants which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

**16. CHANGE IN ACCOUNTING PRINCIPLE**

During the year ended June 30, 2022, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use and underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset. These changes were incorporated in the School District's financial statement.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

October 11, 2022

To the Board of Education of  
Auburn Enlarged City School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information, of the Auburn City School District (School District), as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 11, 2022.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

October 11, 2022

To the Board of Education of  
Auburn Enlarged City School District

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited the Auburn City School District’s (District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on its major federal program for the year ended June 30, 2022. The District’s major federal program is identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District’s compliance with the compliance requirements referred to above.

### ***Responsibilities of Management For Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities For the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## AUBURN ENLARGED CITY SCHOOL DISTRICT

### Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2021

---

#### 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal grant activity of the Auburn Enlarged City School District (District), under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or the respective changes in financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are presented in conformity with accounting principles generally accepted in the United States and the amounts presented are derived from the District's general ledger.

#### 3. PASS-THROUGH PROGRAMS

Where the District receives funds from a government entity other than the federal government (pass-through), the funds are accumulated based upon the Assistance Listing number advised by the pass-through grantor.

Identifying numbers, other than the Assistance Listing numbers, which may be assigned by pass-through grantors are not maintained in the District's financial management system. The District has identified certain pass-through identifying numbers and included them in the schedule of expenditures of federal awards, as available.

#### 4. INDIRECT COSTS

Indirect costs are included in the reported expenditures to the extent they are included in the financial reports used as the source for the expenditures presented.

The District did not elect to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**5. MATCHING COSTS**

Matching costs, i.e., the District's share of certain program costs, are not included in the reported expenditures.

**6. NON-MONETARY FEDERAL PROGRAM**

The District is the recipient of a federal financial award program that does not result in cash receipts or disbursements termed a "non-monetary" program. During the year ended June 30, 2022, the District received food commodities, the fair value of which amounted to \$76,609, is presented in the Schedule as National School Lunch Program (Division of Donated Foods, AL#10.555).
